STUDENT ATTENDANCE POLICY

Document Type: Administrative Policy

Reference No: NUB/POL/2026/003 | Date: 12 January 2026

This Attendance Policy governs the minimum class attendance requirements for all students of Northern University Bangladesh across all departments. The policy applies to both theory and laboratory courses for every semester.

1. Attendance Threshold

- A minimum of **70% attendance** in each course is mandatory to be eligible to sit for the final examination.
- Students with attendance between **60% and 69%** may sit for the final exam only after paying a non-collegiate fee of BDT 2,000 per course and obtaining departmental approval.
- Students with attendance **below 60%** will be barred from the final examination of that course and must retake the course.

2. Attendance Marks

Class attendance carries **10%** weight of the total course marks. Attendance marks are distributed proportionally based on the percentage of classes attended.

3. Penalties & Exceptions

- Medical leave is granted only with a valid medical certificate submitted within 7 days of absence.
- Approved medical and university-sponsored activity absences are not counted against the attendance threshold.
- Repeated unexcused absence may lead to an academic warning (refer to the Academic Warning & Probation Policy).

4. Recording & Verification

Course instructors record attendance daily. The attendance sheet is finalized one week before the final examination. Students may verify and dispute their attendance record before the exam registration deadline.
